Bathex

The Art Of Flow

QUALITY INNOVATION DESIGN & SERVICE

Exceptional quality is the guiding principle that Bathex has been founded upon, across time. Our bold designs and our mission to enhance gracious living continues to build from this central promise. The products reflect this heritage of excellence. Leading-edge design, advanced technologies and renowned craftsmanship characterize our innovative faucets.

TECHNOLOGY AND R&D

FAUCETS

Bathex

The Art Of Flow

CARTRIDGES

The heart of every faucet, the cartridge is responsible for controlling water supply .

- Eogy cartridges are 2 lacs cycle tested to give a longer and trouble free operating life of upto 20 years (considering 60-70 operations per day)
- Wide angle of lever provides ultra comfort and flawless, smooth operation
- Our cartridge spindle is made of brass instead of plastic, to avoid breakage
- Works smoothly even at high temperatures (85 degrees) and in various pressure conditions (0.5 - 5 bar)

AERATORS

Devices that mix air with water to give a soft and splash-free flow .

- Our integrated honeycomb-structured aerator, provides lime buildup protection
- Integrated anti-clogging dome screen of the aerator filters sediments and dust particles

CHROME FINISH

Upper shiny protection layer provides a mirror finish to every faucet.

- High Plating thickness (Nickel : 10 microns and chrome : 0.3 microns) provides tolerance to extreme climate and water conditions
- 450+ hours of salt spray test ensures our finishes are highly durable and corrosion resistant for a much longer duration.

SAVE WATER

Our flow regulators are designed to regulate and control the flow of water to taps and showers without hampering the performance or the design of the product.

SAVE THE PLANET

We all want to try and do what we can to help the environment. With our flow

This can only be good for the planet.
